

A Pathway to Success

Leading Practices for Service Organisations

With thousands of successful implementations, NetSuite has a deep understanding of businesses across all sectors and the many financial challenges they face. As the pace of change accelerates—especially for those still relying on aged, on-premise ERP systems—companies are struggling to keep up. While they strive to improve business performance and increase customer satisfaction in an increasingly competitive environment, businesses today are constantly challenged with:

- Metrics based on unreliable data.
- Duplicative and manual processes.
- Maintaining compliance and control.
- Lack of flexibility resulting in an inability to scale.
- Inability to effectively manage people and projects.

NetSuite:

Built with services leading practices

- **Continuous Customer Lifecycle Engagement** to ensure seamless continuity from sales to services to support.
- **Full visibility across the organisation** to operate at the speed of modern business, drive results and scale.
- **Industry-based leading practices** built from over 20 years of collective implementation experience to drive value from day 1.
- **Fully flexible platform** which allows for customisation to industry and business need.
- **150+ pre-built reports and pre-configured roles** with dashboards and business intelligence metrics.

“NetSuite is the one provider that’s always been in the cloud, it really ticked all the boxes for us.” **SPF Private Clients**

As they seek to address these challenges, companies are concerned about the time and capital required to fix their back-end systems. They realise, however, that the ability to quickly adapt and scale is critical to their success. What they need is a proven solution that can rapidly accelerate the business with a modern architecture to go from zero to cloud in as few as 100 days. *What they need is NetSuite.*

NetSuite delivers a unique set of processes, activities and systems specifically designed to deliver value. It provides our customers with a strong foundation to transform their

A Proven Path to Success

NetSuite delivers a unified and phased pathway for our customers to succeed and scale their business. Here is how it works:

- The first step involves delivering a single view of customers, projects and resources, complete with a flexible billing environment. Getting a business on a real-time platform so that all divisions are operating from a unified base, with proactive reporting and analytics, is the critical foundation. Built for services organisations with resource management, timesheet capture, project billing and revenue recognition capabilities that leverage NetSuite's pre-configurations and leading practices, customers are able to go live on this step quickly.
- From there, customers are freed from the constraints of their legacy systems and the next step extends globalisation and the financial platform capabilities. This phase allows for international expansion. Customers are ready to tackle more complex services challenges including CRM, management of missed revenue opportunities.
- From here, effort can be invested in complex financial planning and business intelligence tools. Inventory management can be held for diversifying customers. Corporate governance is strengthened to meet increased audit requirements as the business scales.
- Ultimately, the focus turns to more innovative and disruptive strategies such as integrated marketing, enhanced customer experience through self-service and multi-channel integration. Advanced Corporate Performance Analysis provides distributed integrated planning for the whole organisation.
